RE: **For Immediate Release**

Cannon Signs Agreement with Kyoto Electronics Manufacturing

ORLANDO—CANNON Instrument Company has executed an agreement with Kyoto Electronics Manufacturing (KEM) during PITTCON 2010 to assume exclusive representation for KEM products which are applicable to the Petroleum, Polymer and Petrochemical Industries. Under the terms of the agreement, CANNON assumes the role of exclusive distributor for KEM instruments in the USA and portions of North America. KEM instruments available from CANNON will include Densitometers, Refractometers, Titrators, and others.

The agreement was executed during a private ceremony on 3 March. Signatories were Cannon Instrument Company's President Pat Maggi, and Kyoto Electronics Manufacturing's (KEM) President & CEO Kenzo Katsuki.

Kyoto Electronics www.kyoto-kem.com was founded in 1961, on a principle that the measurement of physical properties such as thermal conductivity, density/specific gravity and refractive index is essential to the progress of science and technology. As an established expert in the field of these physical properties arenas, KEM offers instruments which have high quality precision, reliable and quick results.

By joining together to address sales and service in the important North American market, Cannon Instrument Company and Kyoto Electronics Manufacturing (KEM) look forward to providing a strong alternative to our mutual customers interested in sourcing and support of Densitometers, Refractometers, Titration instrumentation.

Cannon and KEM look forward to providing these fine products to our established North American customer base.
