

June 19, 2009

To Whom It May Concern:

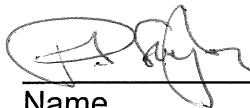

Cannon Instrument Company, manufacturer of scientific equipment for the measurement of viscosity, with headquarters in State College, Pennsylvania, USA is pleased to confirm that Zematra B.V., Steenspil 28, 4661 TZ Halsteren, The Netherlands, is the sole authorized Cannon distributor in the United Kingdom as of June 23, 2009 for our full line of Cannon products.

This agreement authorizes Zematra B.V. to generate sales on our behalf as well as providing installation and service of Cannon products in these territories. In addition, Zematra B.V. is responsible for the after sales service and warranty support of the full line of Cannon products. Purchase from any other party will void the warranty for the product.

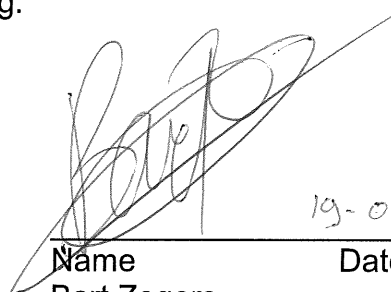

Zematra B.V. agrees to comply with U.S. Export Administration Regulations on all transactions.

This authorization automatically renews itself each year and may be terminated by either party upon 30 days notice in writing.

Sincerely,

 19 June 2009
